

BAYVIEW TERRACE

ASSISTED LIVING FACILITY

CARE & INDEPENDENCE

The Bayview Terrace Assisted Living Facility in Kodiak, AK is designed for those who need extra support and personal care assistance, but don't require the intense medical services of a nursing home. It is a non-medical facility with the capacity to provide a comfortable home for 15 residents. Each room is a private one-bedroom, one-bathroom apartment with a nice living room and full kitchen.

With the Kodiak Senior Center and Island Cove located right across the parking lot, and the downtown Kodiak community just a few blocks away, we offer a lifestyle of convenience to all of our residents.

Our dedicated staff team members are trained to provide a skilled approach when providing resident assistance with activities of daily living such as bathing, dressing, medications and meal preparation.

We encourage independence, ensure security, as well as display friendship, love and care. Our residents will enjoy a lifestyle of choice and are encouraged to assist in planning activities and meals. Our community has various indoor and outdoor activities. Family and friends are always welcome to come enjoy a relaxing and enjoyable visit with their loved one.

Bayview Terrace Assisted Living is committed to meeting and exceeding both residents and family members expectations. For individuals who just need a helping hand with the activities of daily life, Assisted Living can be the perfect solution. Allow us to show you why!
